# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On August 17, 1975
  - Export shipments in  
Current Marketing Year
  - Daily Sales reported  
August 18 - 26, 1975
- As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of August 28, 1975 (based on reports from exporters during the week ending August 17, unless otherwise noted):

EC INTRODUCES EXPORT TAXES ON GRAIN: Recent increases in world grain prices have prompted the European Community (EC) to introduce export levies (taxes) on grain shipments to third countries. As of August 25, they were U.S. \$21.54 for wheat, \$25.34 for barley, and \$15.20 for oats and corn.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 rose sharply by 1,428,900 metric tons (MT). Total commitments to the EC climbed by 228,200 MT to 1.7 million MT, with outstanding sales reported at 1.3 million MT compared with 2.8 million MT at this time last year. Drought conditions in Poland and East Germany have reduced crop prospects and because of the short crop in the USSR, a traditional supplier, these countries are expected to increase their purchases from the United States. Total commitments to East Germany increased by 365,800 MT to 721,100 MT, and commitments to Poland increased by 263,900 MT to 380,700 MT. Outstanding sales to Eastern Europe for 1975/76 stood at 1.0 million MT as of August 17, compared with only 86,500 MT for 1974/75 at this time last year.

Sales reported under the daily reporting system during the period August 18-26 indicate the following purchases: an additional 451,800 MT by East Germany, almost all of which is for January-February 1976 delivery; 129,032 MT by Poland for September 1975-February 1976 delivery; and 60,964 MT by Algeria for August 1975-July 1976 delivery.

Feedgrains: Total corn commitments for 1974/75 increased by 136,100 MT, with an increase of 80,500 MT to the EC representing the only major change. For 1975/76, total outstanding sales rose by 1.0 million MT to 8.0 million MT, with outstanding sales to Japan increasing by 132,100 MT to a total of 1.5 million MT. Outstanding sales to East Europe (East Germany and Poland) increased by 350,600 MT to 1.7 million MT, and sales to the EC increased to 2.5 million MT.

In contrast to this year's favorable production outlook for corn in the United States, last year's short U.S. crop apparently induced traditional U.S. trading partners (EC and Japan) to make early purchases. Consequently, outstanding sales for the 1974/75 crop year had already reached 24.1 million MT at this time last year, including outstanding sales to the EC (9.4 million MT) and Japan (6.3 million MT).

Sorghum commitments for 1974/75 shipment rose by 194,400 MT, largely on the basis of an increased commitment to the EC of 148,400 MT. Outstanding

sales for 1975/76 climbed by 235,100 MT to 1.1 million MT, compared with outstanding sales of 3.2 million MT for 1974/75 shipment at this time last year.

Soybeans: The apparent export commitment for 1974/75 increased by 104,600 MT. Exports during the week totaled 272,100 MT, 15,800 MT above the previous week's level. Brazil has suspended exports of soybeans for an undetermined period because applications for export registrations were greater than the quantity of soybeans being offered for export.

Soybean Meal: The apparent export commitment for 1974/75 increased by 17,800 MT. Exports during the week totaled 65,300 MT, while outstanding sales decreased by only 47,600 MT. Major export destinations were the EC (48,800 MT), Venezuela (7,700 MT), Canada (5,100 MT), and Jamaica (2,400 MT).

Soybean/Cottonseed Oil: The apparent export commitment for soybean oil shipments in 1974/75 increased only slightly (100 MT) over that of the previous week. Exports during the week totaled 1,200 MT. Competition from Brazilian soybean oil and Malaysian palm oil plus a reduced U.S. crush has caused U.S. exports to decline. The apparent export commitment for cottonseed oil shipments in 1974/75 decreased by 300 MT and exports during the week reached 10,000 MT. Major export destinations were Venezuela (5,000 MT) and Egypt (3,900 MT).

Cotton: The apparent export commitment for 1975/76 again declined as new sales failed to offset light export movements. International demand was restricted to Far Eastern importers who continued to resist relatively high U.S. asking prices. The 23,000 running bales of U.S. cotton sold to those markets went mostly to the Republic of China (Taiwan). Japanese buying interest was reported but no new sales were registered during the week to that country. Argentina sold a moderate amount of low quality cotton to Far Eastern markets at relatively low prices.

World cotton textile activity remained slow during the second quarter of 1975 and there is no optimism in the outlook for the third quarter, according to a survey of weavers and spinners by the International Federation of Cotton and Allied Textile Industries. Some improvement was indicated in the spinning sector as stocks appear to have diminished while exports improved and prices tended to stabilize. However, production cutbacks continued and unfulfilled orders were again low.

NOTE: As used in this report the current marketing year is the 1974-75 Marketing Year for corn, grain sorghum, soybeans, soybean oil, cake and meal, soybean oil, cottonseed oil, cake and meal and cottonseed oil. For all other commodities the current marketing year is 1975-76.
